Centrifuge range

Large to 2.0 Litre
Large to 3.0 Litre
Floor to 4.0 Litre max

PRP centrifuge

a division of

CENTURION
SCIENTIFIC LIMITED

Protein rich plasma

We can offer a range of centrifuges and rotors to suit your tube style and size

Send us your proposed tube we will design to suit with no charge

Cytology centrifuge

a division of

CENTURION
SCIENTIFIC LIMITED

Cytology centrifuge

Rotor to 4 Dual place Rotor
to 8 Dual place Rotor to 12
Dual place

Sample holders , single, dual
and a 6ml type

Cell washer centrifuge

a division of

CENTURION
SCIENTIFIC LIMITED

Manual Cell washer

Small centrifuge
complete with removable
rotor.

Rotor has 12 tube capacity

HOLDERS SUPPLIED

12 off 10 x 75mm

12 off 12 x 75mm

Gastronomy centrifuge

a division of

CENTURION
SCIENTIFIC LIMITED

Ambient & Refrigerated
Centrifuge range

- Small to 0.5 Litre max
- Medium to 1.0 Litre max
- Large to 2 Litre max
- Large to 3 Litre max
- Floor to 4 Litre max

Analytical centrifuge

a division of

CENTURION
SCIENTIFIC LIMITED

Ambient & refrigerated
Centrifuge range

Micro to 0.2Litre max Small
to 0.5Litre max Medium to
1.0Litre max

Choose From our Range

CENTURION
SCIENTIFIC LIMITED

For a nominal fee we can brand the centrifuge for you with your own overlay, some examples shown below.

As part of the OEM comprehensive package we can also add your own Instruction manual and contact details.

Give us a call to discuss, no commitment just a chat and we can discuss your thoughts with what we may offer.

A tailor made centrifuge for a minimal outlay, no one else offers this package.

Further all the design and development has been done by us with manufactured products spanning over 30 years.

A full 2 year warranty is offered and training for sales and service staff

PrO-Care

Service, Warranty & Maintenance Packages

The lifespan of a centrifuge depends upon how well it is looked after and maintained. Many of our centrifuges have lived a life of over 15 years.

This is not only due to our stringent manufacturing process and high quality components but also to a yearly servicing package. Making them a cost effective solution of centrifugation.

Whilst our centrifuges come with a confidence giving warranty, yearly services are imperative to ensure your warranty is valid, this also ensures your machine is working to its best ability and lengthens its life span. Also as centrifuges are a dangerous machine, safety checks are required too.

For UK customers we offer a back to base service package including carriage to us and return all within 48 hours. Centrifuge seals, fuses & other parts are replaced, adjustments made, rotor checked for stress cracks, seals changed if necessary (extra charge) PAT (portable appliance test) is included Obligatory in UK.

For worldwide customers we offer a full parts package per model. The designated country distributor services the units accordingly.
